React and Redux (JavaScript)
Node js (JavaScript)

Work Experience

Software Engineer [.NET] at Spiralogs International

Mar, 2022 - Present

I am currently working as a .Net developer with a focus on MVC at Spiralogs International. In this role, I am responsible for designing, developing, and maintaining web applications using the .Net framework and MVC architecture. I have a strong understanding of software design principles and am committed to producing high-quality code. My experience as a .Net developer, particularly in MVC, has allowed me to make significant contributions to my team and our clients.

.Net System Implementation and Server Setup at Nimble Infosys

Jul, 2021 - Feb, 2022

I have experience in implementing and maintaining .Net systems and have a strong understanding of the .Net framework hosting. I have successfully delivered projects on various clients utilizing .Net technologies, including web applications and server-side solutions. I am skilled in server setup and have experience with configuring and maintaining servers running various operating systems.

Wordpress Designer and Photoshop at Digital Marketing Agency

May, 2020 - Jul, 2021

As a WordPress developer and graphic designer with experience at a digital marketing agency, I have a strong understanding of WordPress and have developed numerous custom WordPress websites. I am also skilled in hosting and have experience with managing and maintaining websites on various hosting platforms. In addition, I have expertise in graphic design, particularly using Photoshop.

Education

Bachelor in Information Management from Orchid International College

2017 - 2021

I hold a Bachelor's degree in Information Management from Tribhuvan University. This degree program focused on the management of information systems and technology, and covered a range of topics including database design, software development, and project management. Through this program, I developed a strong foundation in the principles and practices of information management, and gained the technical and problem-solving skills necessary to be a successful IT professional.

High School on Management from SOS Hermann Gmeiner School

2015 - 2017

During my time there, I excelled in my studies, particularly in the fields of mathematics and computer science. I also actively participated in extracurricular activities, including the school's computer club and math team.

Secondary Education from Highland English Secondary School

2014

I developed a strong foundation in the core subjects, including mathematics, science, and language arts. I also had the opportunity to explore my interests in technology through elective courses in computer science. My time at school helped to shape my academic and personal interests and prepared me for the next stage of my education.
